Explosives found, suspect cornered after gunfire targets Dallas police headquarters

(CNN) - Attackers opened fire on Dallas police headquarters early Saturday, then an armored van parked in front of the building drove off and rammed a squad car, authorities said. Police returned fire, and the van fled with the suspects. After the attack, police found suspicious bags near the headquarters. At least one contained explosives, prompting evacuations from areas around the police headquarters. As an explosives robot approached one of them, it blew up, Maj. Max Geron tweeted. No one was injured. Authorities believe up to four people may have opened fire from various locations with automatic weapons, including from the van, said Police Chief David Brown. Explosives experts detonated an explosive device found under a police vehicle, police said in a tweet. No one was injured. Officers are also investigating a suspicious package at a police substation. Dallas police found a total of two explosive devices near their headquarters; all suspicious packages found there have now been cleared, police tweeted early Saturday. Police published photos of dozens of bullet holes shot through their headquarters' windows.

Oman accepts six Yemeni prisoners from Guantanamo

(Al Jazeera) - The United States says it has sent another six Yemeni detainees from its controversial Guantanamo Bay prison in Cuba to Oman for resettlement. In a statement issued late on Friday, the Pentagon said it had transferred Idris Ahmad Abd Al Qadir Idris, Sharaf Ahmad Muhammad Masud, Jalal Salam Awad Awad, Saad Nasser Moqbil Al Azani, Emad Abdallah Hassan and Muhammad Ali Salem Al Zarnuki from the detention facility. "As directed by the president's January 22, 2009, executive order, the interagency Guantanamo Review Task Force conducted comprehensive reviews of each of these cases," the statement said. "As a result of that review process, which examined a number of factors, including security issues, these men were unanimously approved for transfer by the six departments and agencies comprising the task force. "The statement said the US coordinated with the Omani government to ensure the transfers took place in a way that was "consistent with appropriate security and humane treatment measures". The resettlement follows the release of five Yemeni inmates on January 15 from Guantanamo, at least six years after they were cleared for release. Four of those inmates were sent to Oman, while one was sent to Estonia, the first time either nation had accepted Guantanamo prisoners for resettlement. Friday's transfer of the six men leaves 116 inmates at the remote prison, more than 13 years after it opened and seven years after President Barack Obama promised to close it. The prison was set up to hold alleged terror suspects after the September 11, 2001, attacks, but human rights groups have condemned the jail as a "legal black hole", where inmates languish for years without being tried in court.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Very warm and dry weather conditions will continue across the interior through Saturday. Coastal low clouds and fog will increase on Sunday and Monday as an upper trough approaches. Slight cooling is expected Sunday and Monday.

Medford Weather:

Saturday's weather will look similar to Friday's weather although the upper high begins to weaken.

Reno Weather:

A warm and mostly dry pattern is expected for the weekend and into the upcoming week. High temperatures will warm well into the 90s for the lower elevations with 70s and 80s in the Sierra. Afternoon Zephyr breezes can be expected each day, with some enhancement Monday and then again toward the end of the work week.

San Francisco Weather:

Temperatures will gradually cool through the weekend as high pressure over the eastern Pacific weakens. In addition, dry weather conditions will persist through much of next week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Temperatures will cool slightly this weekend as high pressure slowly weakens. Dry weather expected through next week.

Hanford Weather:

A weak upper level low will continue to track slowly east today. Enough moisture will linger over the southern Sierra Nevada for isolated showers and thunderstorms this afternoon and evening. High pressure will follow and bring drier conditions and continued above normal temperatures from Sunday through well into next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Night through morning low clouds will cover the coasts and extend locally into the valleys, otherwise it will be clear. Daytime highs will be slightly below normal at the coasts and above normal inland.

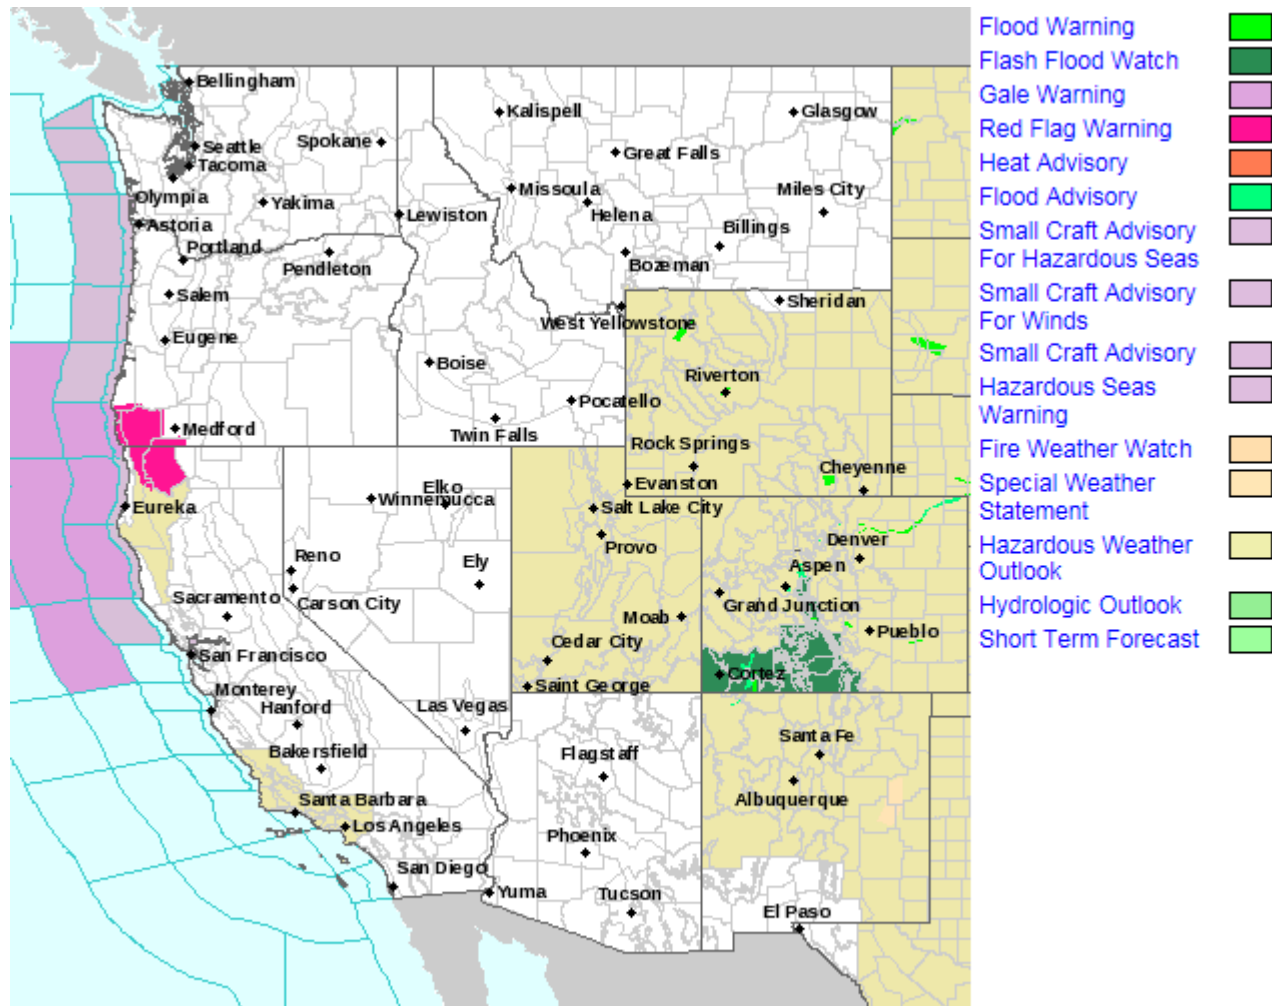

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Residual lower and mid-level moisture will once again bring a chance of showers and thunderstorms to the mountains of San Bernardino and Riverside counties and the upper deserts for this afternoon and early evening. Otherwise, high pressure aloft will result in a gradually shallower marine layer marine through the middle of next week along with an inland warming trend. High pressure will weaken slightly the latter part of next week with slow inland cooling and slow deepening of the marine layer.

Southeast California Weather:

Southeastern California will remain dry with a warming trend beginning Sunday. Much stronger high pressure will build next week leading to a significant warmup where many lower deserts locations will finally reach the 110 degree threshold.
